

## **Option 1200-3: Lambda Pro Gaseous Fuel Programming, Version #2**

The Lambda Pro you have received has been programmed for the fuel of natural gas (as CH<sub>4</sub>) and propane.

The standard Lambda Pro instruction manual (Part No. 1200A-5) is to be used with this unit with the following modifications:

Units and ranges of operation:	Gasoline:	8.0	to	25.5
	Natural Gas:	9.5	to	30.0
	Propane:	8.7	to	27.3

Follow the instructions on page 6 of the manual (“Selecting AFR Units”) to select the AFR units. Natural gas appears as “CH<sub>4</sub>” on the display and propane appears as “Pro” on the display.

The ranging of the analog output for lambda, natural gas, and propane is displayed after turning Lambda Pro on as described on page 7 of the manual (“Analog Output”).
